PROJECTS

Dynamic Flashcard System

UC Merced CSE 155 - Human-Computer Interaction

- Integrated FSRS ML model to dynamically schedule flashcards & optimize user memory retention.
- Built a full-stack adaptive learning platform using React and Next.js, connecting the frontend UI to backend predictive algorithms.

VisionLen AI

HackMerced XI @ UC Merced

- Built real-time OCR web app using React, Vite, and Google Gemini 1.5 Flash for camera-based text extraction and AI summarization.
- Integrated Web Speech API for text-to-speech feedback and Framer Motion for UI animations.

Aksheentrathod.com

Portfolio Website

- Built portfolio web app using Next.js, React, and TypeScript for scalable component architecture.
- Implemented responsive UI with Tailwind CSS and established continuous deployment via Vercel.
- Engineered frontend platform to consolidate and showcase software engineering projects.

EXTRACURRICULARS

180 Degrees Consulting

Founding Board Member, Outreach Director, Consultant

- Delivered presentations during lectures to recruit high-performing students for consultant roles.
- Working with clients to gather project details, set measurable goals, and meet expectations for an SEO optimization project.
- Directed meetings and maintained consistent communication with consultants to ensure alignment.

AI Auto Grader

Research Intern

- Assessed AI evaluation consistency against human grading for Python projects using classification metrics.

UC Merced Dhamaka

General Officer, Team Member

- Acted as liaison between executive board and team, translating directives into actionable tasks while leading choreography and organizing practice logistics.

SKILLS

- | | | | | | |
|--------------|----------|-----------|-------------------|------------------|---------------|
| • Leadership | • CI/CD | • React | • LLM Integration | • Classification | • Deep |
| • Project | • SEO | • Python | • Predictive | Metrics & Model | Learning |
| Management | • Vercel | • Next.js | Modeling | Evaluation | Architectures |

EDUCATION

Aug 2023 - Present

Computer Science and Engineering, B.S.

University of California Merced

- CSE100: Algorithm Design, CSE108: Full-Stack Web Development, CSE111: Database Systems, CSE120: Software Engineering, CSE155: Human-Computer Interaction, CSE190: Deep Learning
- MATH023: Vector Calculus, MATH024: Linear Algebra, MATH032: Probability and Statistics, MATH141: Linear Analysis I, ENGR 156: Technical and Professional Writing for Engineers
